Real Wood Veneer Concealed Grid Ceiling Panels

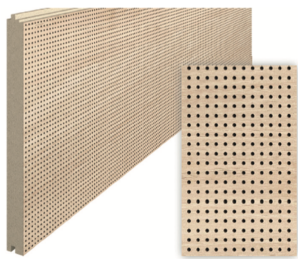

Slotted 32/3

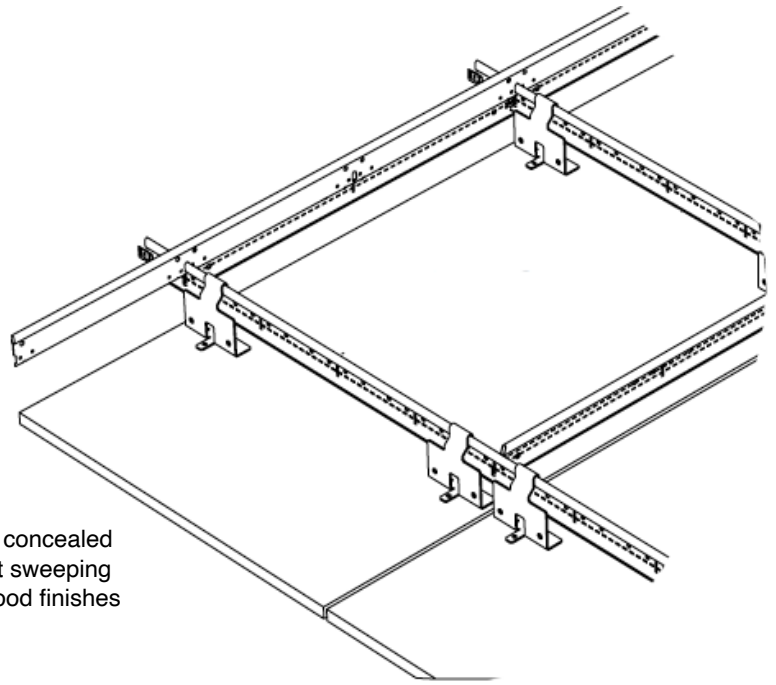

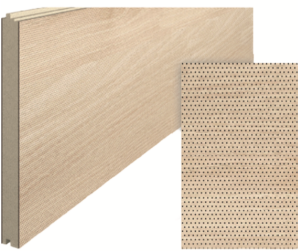

Perforated 8,8,3

Perforated 4,4,1.5

Perforated Micro

Rapid install ceiling with concealed suspension delivers vast sweeping areas of uninterrupted wood finishes

AAM concealed suspended ceiling panels are made from durable, class 'A' Fire Rated Real Wood Veneer

The light weight panels are 3/4" thick and either acoustically absorbent or reflective. (Panel weight is 2.75 lbs per square foot.)

Available in 24" widths and either 48", 72" or 96" long as standard with a 1/4" (6mm) reveal between all panel edges.

Select from any of the 45 Real Wood Veneer species or add a custom specie or color.

Panels are pre-drilled for suspension clips making installation fast and simple on to a conventional suspended ceiling grid .

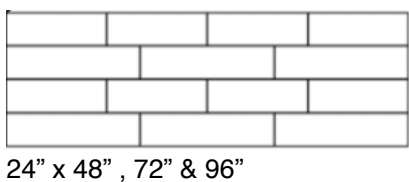

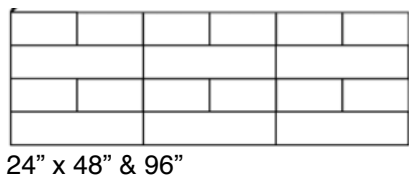

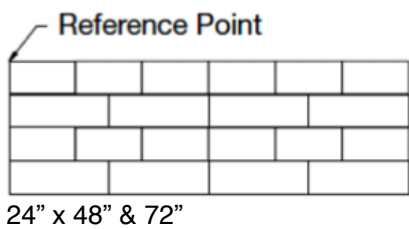

Quick, simple, clean and durable.
GRID® wall panel

T-Calc, Topeka, KS

STAGGERED LAYOUTS
